Parent Forum

Meeting Minutes

Present: P Roberts (Headteacher)

23/10/25

Notes / Actions

Notes	Actions
Mr Roberts shared an update on the forums discussion around mobile phones, screen time and keeping children safe. Mr Roberts outlined a plan which colabroates with IT Support company PEL (who support many, if not all, schools in the area). There is a Headteachers meeting in November where both Mr Roberts and PEL will attempt to gain traction across all schools to roll out a pathway of expectations/parent advice around suitable use and access to technology across time.	Mr Roberts to update the group in due course.
Inappropriate language in society, school and reference again to technology was discussed. Mr Roberts shared ideas around a more zero tolerance approach and changes to procedures which often navigate ensuring education for the children first, before strong consequences. Parents expressed the difficulty due to ages and suggested younger pupils need time and education, but also older pupils need high expectation and consequence.	Senior team to continue to review and update in future forum.
Community School concept outlined by Mr Roberts. He then asked parents for any ideas about further increasing engagement from the community.	Parents suggested local Olympian. Parents to consider in due course.
Agenda for the year was requested from parents. Many Senior staff will continue to use this format to review regular areas such as homework or trips and visits. Parents asked for Aspens, as there are concerns being raised with quality and quantity of the food. Parents also suggested using the forum to invite children and parents to review the Year 5 transition. What went well, even better if.	Mr Roberts to liaise with the senior team to create forthcoming agenda items
AOB – A parent took the opportunity to thank Mr Campbell and the SEND team for	Mr Roberts to share with staff
